## NEW - Harris Wood - Wynwood Commercial

Harris Wood recently introduced the new Wynwood Commercial Engineered Wood Collection, with a **5-year commercial finish warranty**. Wynwood is available in three species: Red Oak, Hickory, and Maple, and eight contemporary colors, all with an upscale look and low gloss finish. Wynwood is **100% real hardwood** with 5-ply construction for stability. Planks are 1/2" thick x 5" wide, in random lengths. Wynwood and all other Harris Wood collections are **made in the USA**.

Check out the new [Wynwood](#) page on the Harris website, and click on individual colors to see room scenes. Please [contact me](#) if you'd like to order an architect folder or individual samples, or if you'd like any additional info. If you're heading to **NeoCon**, check out the new Wynwood Collection in person at the **Harris Wood booth, #7-10101**.

## UPDATED - Tarkett Optima

The [iQ Optima Homogeneous Sheet and Tile](#) line has been recolored. Some colors were kept, some were dropped, and several **fresh new colors** were added. iQ Optima is available in **sheet, 24"x24" tile**, and now **two new tile sizes: 12"x12" and 12"x24"**.

iQ Optima has a multi-tonal linear pattern inspired by the soft, subtle striations found in natural stone or bark.

The iQ technology and homogeneous construction of iQ Optima makes it **long-wearing and easy to maintain** - no finish is needed.

Please [contact me](#) to order a new iQ Optima folder or individual samples, or if you have any questions.
